OUR FRESH ,FRIED & WET - FRY TILAPIA

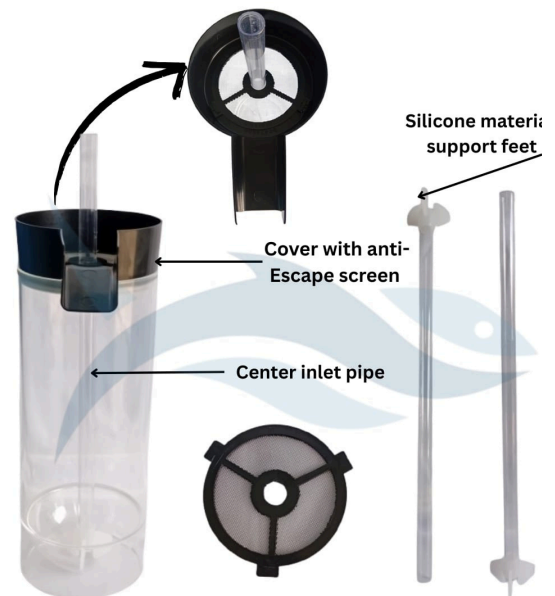

Samaki Express
EA Ltd

OUR PRODUCTS & SERVICES

- Aquaculture Supplies.
- Consultancy & Advice on Catfish and Tilapia Farming.
- Organizing Training and Field Days to Farmers.

At Samaki Express E.A Limited we provide services such as Consultancy and advice on catfish and Tilapia farming.

Linking fish farmers to ready markets Organizing trainings and field day to farmers.

Samaki Express "we know fish". We are the company to go to for all your aquaculture needs in East Africa. We import quality other inputs and systems for your success. If you have water we will make fish farming possible to you.

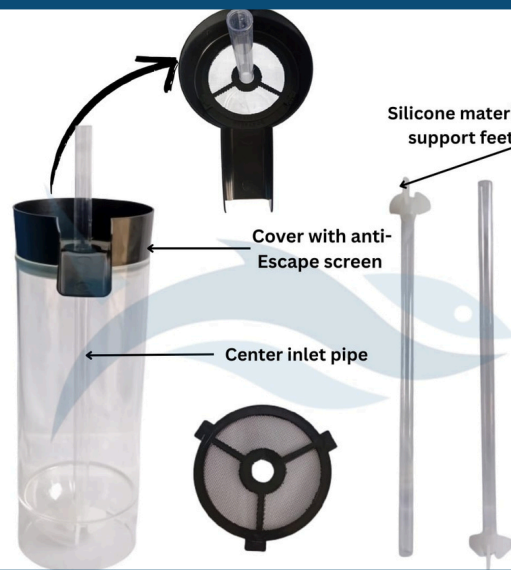

PRODUCT NAME

PRODUCT

USE

Hatching jar

Commonly used in the aquaculture industry for the incubation and hatching of fish eggs.

Ph tester

Helps maintain optimal conditions for aquatic life by measuring pH levels.

Portable ph pen

Used for measuring the acidity or alkalinity (pH) of a liquid.

PRODUCT NAME	PRODUCT	USE
Dividers		Used to distribute air from an air pump to multiple locations within a fish tank or aquaculture system.
5 in 1 water quality tester	<p>5 in 1 Water quality tester</p> <div> <div> <p>PH</p> <p>0.01-14.00pH</p> </div> <div> <p>TEMP</p> <p>0.1-60.0°C / 32.0-140°F</p> </div> <div> <p>TDS</p> <p>0-1000ppm 000ppm -10000ppm 10.1-200.0ppt</p> </div> <div> <p>EC</p> <p>0 -10000uS/cm 10.01-19.99ms 20.1- 400mS/CM</p> </div> <div> <p>Salinity</p> <p>0.00~25.00‰ 10.1-200.0ppt</p> </div> </div>  <p>RAPID_HOUSEHOLDS POSTED ON JIJI</p> <p>5 in 1 TDS/EC/PH/Salinity/TEMP Water Quality Tester</p>	It measures pH, TDS, EC, salinity, and temperature —key parameters for maintaining healthy water conditions.
7 in 1 water tester		It measures pH, TDS, EC, SALT, S.G, ORP, and TEMP.

PRODUCT NAME

**A pack of 4
(connectors)**

PRODUCT

USE

Used to split and control airflow from aquarium air pumps, allowing distribution to multiple air stones or devices within the tank.

**Submersible
led light
8w**

It provides illumination for fish tanks, enhancing the visual appeal of the aquatic environment and supporting the growth of aquatic plants.

**Catfish
handbook**

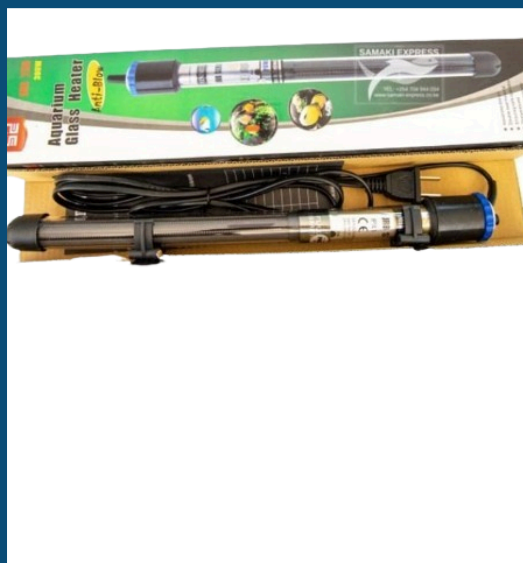

A practical guide for raising African catfish from eggs to market size in controlled environments

PRODUCT NAME

PRODUCT

USE

**Aquarium
Glass
heater
(JRB)**

It is designed to maintain a stable and appropriate water temperature in freshwater and marine aquariums.

**Buffer
solution**

Used for calibrating pH meters to ensure accurate acidity or alkalinity measurements.

**Cylindrical
airstone**

Used to add oxygen to aquariums, ponds, hydroponics, and aquaculture. Releases fine bubbles when connected to an air pump, promoting healthy aquatic life .

PRODUCT NAME

PRODUCT

USE

**No3 water
test
kit**

Used to measure the nitrate levels in aquarium water, which is crucial for maintaining a healthy environment for fish and plants.

**pH water
test
kit**

Used to measure the pH level of aquarium water.

**No2 water
test
kit**

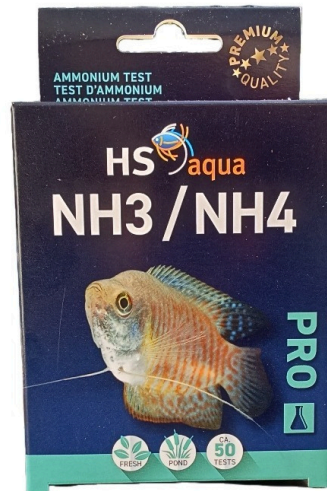

used to measure the nitrite levels in aquarium water.

PRODUCT NAME

PRODUCT

USE

**NH₃/NH₄
(ammonium
test kit)**

used to measure the levels of ammonia (NH₃) and ammonium (NH₄) in aquarium water.

**Internal
liquid
filter**

used for aquarium water purification.

**Submersible
pump**

It acts as a water circulator, ensuring proper water movement within the tank.

PRODUCT NAME

PRODUCT

USE

**Air pump
YT 304**

It is designed for aquarium use, specifically to oxygenate the water .

**Air pump
YT 502**

used to provide aeration and oxygenation to aquariums.

**Fish grader
0.3mm/0.5mm**

It sorts fish by size or weight to ensure uniform growth, optimize feed use, and improve marketability.

PRODUCT NAME

PRODUCT

USE

**Dissolved
oxygen
analyzer**

**Used to
measure the
amount of
dissolved
oxygen in water.**

**Magic
sterilizer**

**used for
sterilizing
surfaces and
eliminating
bacteria and
germs.**

**Decapsulated
Artemia**

**Used as a
food source
for fish .**

PRODUCT NAME

PRODUCT

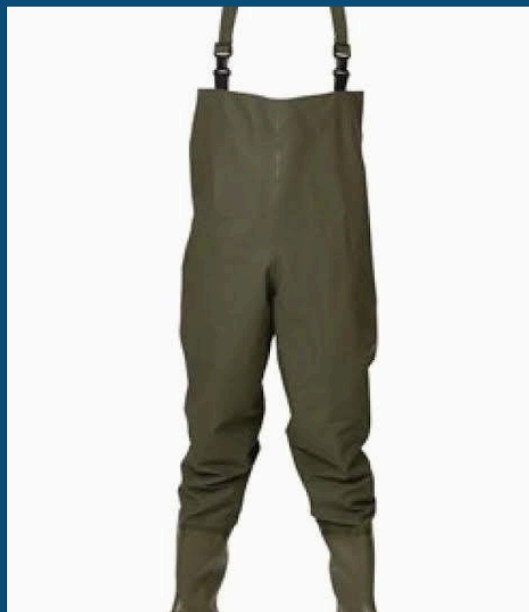

USE

**Dissolved
oxygen
meter**

**Ideal for
monitoring
oxygen levels in
fish ponds,
tanks, and
hatcheries.**

**Waders
available
in sizes
(40,42,44)**

**Waders are essential
for aquaculture! They
keep you dry, safe,
and comfortable
while feeding fish,
cleaning tanks, or
harvesting in ponds
and water systems.**

**Fingerlings
Packing box
(styrofoam)**

**It's used to safely
transport fingerlings
by keeping them cool,
oxygenated, and
protected during
transit.**

PRODUCT NAME

PRODUCT

USE

**Air
compressor
45 w
60 w**

**Used for
aerating water
in aquariums,
ponds, and
hydroponic
systems.**

**Air
compressor
80 w
105 w**

**Used for aerating
water in
aquariums,
ponds, and
hydroponic
systems.**

**Airstone disk
BS016**

**It is designed
to be used in
aquariums to
provide
aeration.**

PRODUCT NAME

PRODUCT

USE

Ovaprim

used to promote and facilitate reproduction of many fish.

Kitchen scale

Used for measuring ingredients by weight.

Scoope nets

Available in size 5,8 & 12

Used for catching fish, removing debris from an aquarium, and moving fish around.

PRODUCT NAME	PRODUCT	USE
<p>Thermometer</p>		<p>Used to measure the water temperature within a fish tank.</p>
<p>Airstone 4cm /5cm</p>		<p>used in aquariums to increase oxygen levels by creating a stream of small bubbles, which also helps to release carbon dioxide.</p>
<p>Ovatide</p>		<p>is a synthetic hormone used in aquaculture to induce breeding in fish.</p>

PRODUCT NAME	PRODUCT	USE
wean mix		Designed to provide fish with the necessary nutrients for growth and health.
Airhose		Used to transfer compressed air from an air compressor to pneumatic tools or equipment.
UV light cuv 336 UV light cuv 324		Designed to eliminate harmful microorganisms and algae in aquariums and ponds.

PRODUCT NAME	PRODUCT	USE
Aquarium heater 300w		Used to heat the water in fish tanks, creating a stable and suitable environment for fish and other aquatic life.
Air disk		used to diffuse air into an aquarium or hydroponic system
Bubble Air pump		designed to provide essential oxygen to an aquarium.

PRODUCT NAME

PRODUCT

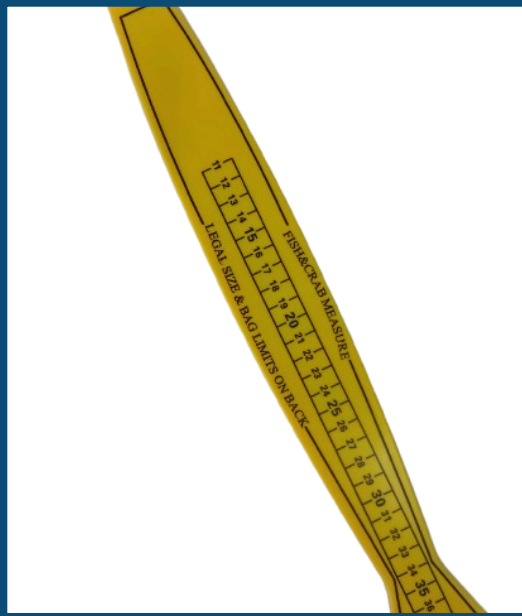

USE

**Air
compressor
85 W**

**Used for
aerating water
in aquariums,
ponds, and
hydroponic**

**Fish gauge
measuring
Ruler**

**Used to
ensure that
harvested fish
and crabs
meet legal size
and bag.
limits.**

**Dissolved
oxygen
Analyzer
(Bluetooth-
enabled for
wireless data
transfer)**

**Used to measure
the concentration
of dissolved
oxygen (DO) and
temperature in
various water
sources.**

PRODUCT NAME	USE
Industrial salt	Is used in aquaculture to control external parasites, reduce fish stress, improve water quality, prevent and treat diseases, aid in fish breeding, and prevent freezing in cold conditions.
Food supplement	Are used to improve fish growth, enhance water quality, and reduce disease risk.
Methylene blue	Used to prevent and treat various fish diseases, particularly fungal infections, and to detoxlify fish from ammonia and nitrite poisoning.
